Surface-to-Surface Rockets and Mortars in Judea & Samaria

On May 24th 2023 a makeshift rocket was found, in an olive grove close to Khirbat A-Tureem. A video, published on social media, shows an attempt to launch the rocket, after which the IDF was able to locate the launching site.

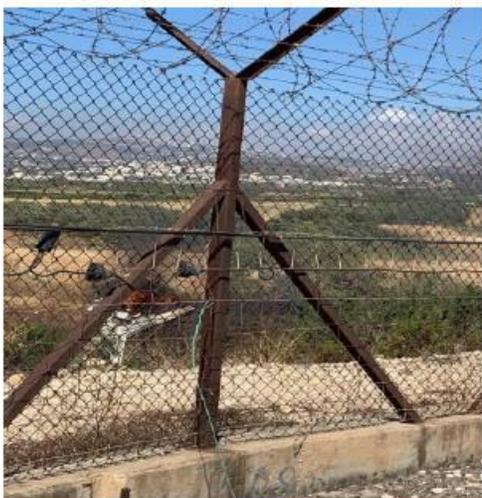

Surface-to-Surface Rockets and Mortars in Judea & Samaria

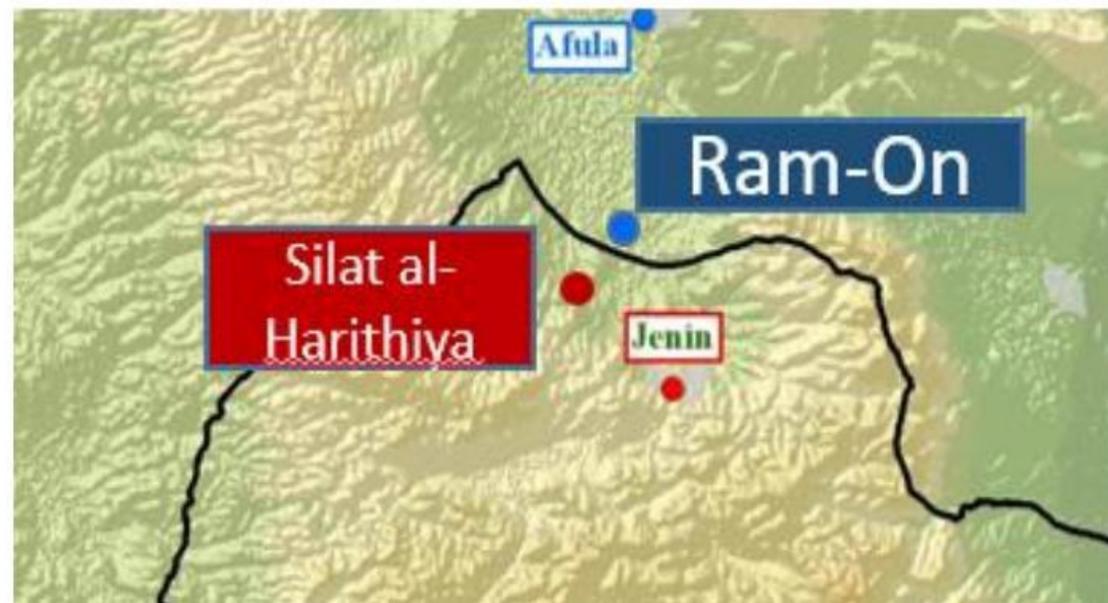

The launch pads

On June 26th 2023 a rocket was launched from the vicinity of the village of Silat al-Harithiya towards the Israeli town of Ram-On. The rocket landed 100m from its launch site, starting a fire. Another attempted launch failed.

The impact site

Key Points – Top 5

The terror organizations are utilizing the civilian area in Jenin Camp as a fertile ground for military activities

Israel conducts a focused operational activity in the Jenin Camp against terror infrastructures & individuals, planning and carrying out deadly attacks across Israel

Israel will not accept any aggression against its forces or civilians, and will act swiftly to remove such threats

Our efforts are conducted with a constant effort to mitigate harm to non-combatants, while maintaining regular civilian activities

Should the Palestinian Authority express will & ability to counter the threats in Jenin, Israel has no interest in operating there by itself
